GENERAL HEALTH

All bulls will have a general health and fertility exam, performed by a licensed veterinarian, prior to the sale. All bulls are sold as guaranteed breeders. Heifers are guaranteed open and have been Bangs vaccinated and had preg guard 10. For re-vaccinating bred cattle always use a killed vaccine. Health certificates will be obtained for interstate transportation, if necessary. Arrangements for any other health requirements will be made sale day, according to terms agreed upon by both buyer and seller. All semen and bull soundness exams performed by Dr. Lane Schmidt DVM.

TERMS OF THE SALE

Terms of the sale are cash. All settlements will be made with the clerks of the sale immediately following the sale and before the cattle are released. See additional terms and conditions on the inside back cover of this catalog.

BRAND INSPECTIONS

Brand inspections will be available at the yards on sale day.

HOTELS & ACCOMMODATIONS

Chinook Motor Inn and Lounge 406-357-2248

GUARANTEES

All bulls are sold as guaranteed breeders. All heifers are sold guaranteed open. Additional terms and guarantees are included in the terms and conditions at the back of the catalog.

DELIVERY

Free delivery on bulls for the first 300 miles, All other deliveries at cost. There is a \$50 per head rebate on bulls taken home on sale day. Any animals left for delivery will be delivered from the yards the day after the sale or returned to the Seller's ranch to be delivered within a week of the sale date in accordance with the Seller or picked up by the Buyer in accordance with the Seller. There will be no free delivery on heifers, arrangements need to be made or they will be delivered at cost.

ABSENTEE BIDDING

Absentee bidding may be made in confidence with any representative listed and will be handled in the strictest of confidence.

Announcements from the block take precedence over printed matter in this catalog.

CALVING SUPPLEMENTS

Last trimester and calving to breed-back interval is the most critical time for cow nutrition.

Vitamin and mineral supplement support:

√Reduced calving problems
√Newborn calf vigor
√Improved colostrum quality
√Overall calf health
√Improved breed-back

we offer the following:

Milk River

406-399-1113 milkriverag.com Chinook, MT

Talk to us about delivery options to your ranch! **Crystalyx** - molasses based lick tubs containing protein and vitamin and mineral package.

Beef Pro - available in molasses bio-barrel tubs, 33# blocks, or granular. Contains biuret for balanced protein release. 35 - 100% protein, vitamin and mineral package.

Granular mineral - Bio Range and Blueprint both over 100% organic (chelated) trace minerals for complete absorption, with no antagonistic effects

Cake and Pellets (Bulk or Bagged)

- 16% 30% Range Cake -Calf Grower Pellets
- Bull Developer Pellets

4-H Market Animals
Show-rite feeds and supplements

- Beef
- Swine
- -Lamb

Welcome to the 19th Annual Bowles J5 Reds Production Sale

I believe that we have a very nice representation of bulls and heifers this year of what we are striving to produce in our cowherd. Every bull and heifer in our sale is sound of body and mind, you don't have to question whether or not if you can trust our cattle. We will not abide bad attitudes or bad structure, we want straight top lines, wide based cattle, with great style and muscle expression that perform in all facets of the beef industrv.

Our bulls are developed on a high grass home grown ration and 8 lbs of bull developer pellet to help build the proper foundation for them to succeed for years ahead. This is a great dispositioned set of bulls; it has been a pleasure to be around them. It has been a tough year to keep our bulls as clean as we would like them to be, so they are a bit crusty but a least we have had enough moisture to make it muddy. We run with kids and old folks around here so quality disposition and healthy respect is a must on all of our bulls.

Our heifer offering is a group of 25 all home raised and developed straight red and sound girls that will be averaging about 750-775 lbs on sale day. They are the epitome of what or program is built around structure with balance of thickness shape and maternal look.

Thank You to all of our customers for your continued support of our program and we will continue to offer you our very best for years to come. If you have any issues with purchased cattle moving forward, please never hesitate to let me know. Brady Bowles 406-353-7085

Why not start with the thickest topped bull in the pen? Okay I will. A bull that turned a 3% below average birth weight into 16% over at weaning and 12% over average at yearling. Out of a proven cow that does her job as well as any cow on the place. Calving ease, maternity and production.

When your daddy is Franchise and you have Machismo then your name is naturally going to be "Franchismo." This is a power bull with as much style and muscle as I think that you can fit into a yearling bull. If you might be looking to inject some performance into your cowherd, there is performance and production built into this bull right here. Keep his daughters.

When enough momentum is created sometimes you can be carried away by the force of it. This bull exemplifies the kind of momentum that we are trying to create in our cowherd. Growth and style married along-side of the structure and thickness of this bull does create a wave that you may want to catch ahold of not just his name he is a Tidal Wave.

Thick and good and long as you can make one if you don't like a bull like this, I don't think that we can be friends. Whenever you find an individual that really exemplifies the attributes that you are looking to improve upon. I think that it is important to identify a potential successor. In this case I think that the student could eventually become the master. Again, he will be offered as choice against the lot # 3 bull. These two bulls are friends, so it gives me no pleasure in separating them.

This is a heifer bull with some rip to him, if you know what I mean. King Triton has muscle, style and structure in a medium and thick bodied package. He really has a look about him, and hits the ProS and HB indeces pretty dang well.

The first Rockabilly is a big bopper with an impressive set of production numbers in a functional and stylish package. This first calf heifer did a tremendous job out of the gates and is the proud mother of one of the best all around bulls in this offering. If you are looking for a bull that produces above average growth with below average birth, then this is a good one to look at.

Proven calving ease genetics from a cow that has paid her dues in the herd. I personally like to have good idea of what to expect from a bull. This bull should be exactly what his personal production and eps's say he should be.

This Scamp can "Climb the Ladder," going from a 62 lbs birth weight and an 81 ratio to a 1055 lbs 105 YW ratio. I think that's the kind of thing that might make someone some money, less pressure on your heifers with impressive growth. Sounds good to me.

If you ask me which cow family has the most consistent light bw and fertility in one package, this one would certainly be in strong consideration for the best. Both sides of the coin should be equally represented between making replacement heifers combined with calving ease and growth.

I like what is put together in this bull. He is moderate and stout but is smoothly made enough to be a calving ease kind of bull. These Road Block cattle look thick and good. His cow has a good start already raising a top end replacement from the Deep End bull and earning a 102 mppa.

Blaze is long deep thick and good. Cow has done a good job since joining the herd as an open heifer. It was cold and snowy last year clear into early mid-April and his ears show a bit of that weather. He has done nothing but turn and burn as soon as he got warmed up.

Stacked 3124 is packing some serious cow power behind him. With his extra-long frame and smooth composition, he is sure to build some high production females with maternity and milk. We knew we had the time to not have to push these bulls to gain like they did last year, but the weights and the quality of bulls are as good as ever.

This bull was a twin and that is why he doesn't have ratios, although he was raised by his own mama. Other than that, this guy is deep thick and long with a very good disposition and almost a 700 lbs weaning weight. Going back to one of our Lambrecht cows that mom bought out of their dispersion sale. Maternity and longevity built in to this Deep End bull as well.

A good bull out of a good cow that always seems to have a heavier weighing calf than it appears. I think if you are looking for a cow bull that will bring you in solid weaning weights and still moderate mature frame size this may be a good bull to take a look at.

Franchise 3024 offers tons of capacity and length from a massive tank of a cow whose dam was purchased out of the NILE from the Sun River Program. This guy will produce some deep soggy type calves that should be nice and dark red.

Bm-bum-bm bum-ba-bum When you get the Blues! One of my esteemed colleagues told me that I should have started the whole sale with this flashy heifer bull. He is tremendously balanced with a thick top and a wide rear-end. And he has dark red color deep in his veins from every angle of his pedigree. If you want a calving ease bull that is gonna sire calves with some extra vigor here he is.

Puppy dog anyone, anyone? This cow line produces moderate and thick made cattle and the Road Block bull is also on that side of the equation. This is the kind of bull that could be 7-8-9 years old still breeding cows and producing good ones.

A young guy in the bunch has done well and is coming into his own. We used Deep End G222 on heifers for his first two years on the place and he consistently produced 75-80 lbs calves that very rarely ever needed assistance. You can trust Deep End Joe to do the same job his daddy did.

Muscle shape and dimension are this Jock's game. A very stylish, dark red bull full of red meat, and has a really easy-going disposition. This is one of the first bulls my son Conner ever said he liked. He thought it was fun to scratch his head at the bunk. (The bull's head not Conner's).

Cows that last are always worth building around, because the simple fact is fertility, and longevity are the two single most economically relevant traits in the cow calf business. Getting cows over 8 years old means they already made you more money and with a production record like his dam's This Franchise here is something to build your herds future with.

This bull comes from the dam of our Rockabilly bull. He was born early and went through an awful lot of tough, cold, and wet weather. I think it took an early toll on him overall, he really took off on feed and now looks like the bull he was born to be. If you take a chance on a low ww ratio bull right here, it should pay dividends with his overall quality genetics.

This is another nice and thick moderate bull with great shape and epd's say more growth potential than he maybe portrays. Backed by a solid cow family with very good maternal character.

This is the youngest calf in the sale and I am just going to say that when younger calves weight against the average they can look a little bit awkward in the adjustment.

A lot of calving ease stacked up here and managed a 99 YW ratio only 1% below his contemporary average from a 50 lbs birth weight.

TERMS & CONDITIONS

TERMS: The terms of sale are cash. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released.

BIDDING DISPUTES: The auctioneer in charge will settle any diputes as to bids, and his decision on such matters shall be final.

PURCHASER'S RISK: Each animal will become the risk of the purchaser as soon as sold. Any animals left in the care of the seller after the sale shall be reasonably cared for and buyer will be advised of any health issues that should arise while in the seller's care.

ANNOUNCEMENTS: Changes of information contained in this catalog relating to animals offered for sale will be announced from the auction block and such announcements shall take precedence over printed material.

REGISTRATION CERTIFICATES: A certificate of registry and transfer will be furnished on all registered cattle at the buyer's request and after settlement has been made. Certificate will specify exact percentage of Red Angus blood as is applicable. Please be sure to inform the clerk at the time of settlement how you would like the papers transfered.

IDENTIFICATION: Each registered animal carries a readable tattoo.

BREEDING GUARANTEED: All bulls are guaranteed to be breeders and have passed a fertility and soundness exam. All heifers are guaranteed open. Any claims for refund of adjustment must be made in writing within six months of the sale RATIO. In the event a bull is claimed to be a non-breeder, the purchaser may return the bull to the ranch of the seller, if in good condition and complying with the health requirements of the seller's state. The seller will be entitled to six months trial following the return of the animal, in which to prove that the bull is a breeder. The seller will be obligated to offer a suitable and comparable replacement, credit towards the purchase of another bull or refund of the purchase price less any salvage value received by buyer. Such replacement, credit or refund shall in any case be deemed full satisfaction and settlement. If the seller proves the bull to be a breeder, it shall be the obligation of the buyer to take delivery of the animal at the buyer's expense.

LIABILITY: Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise for damage of any kind.

RETAINED INTEREST: Seller reserves the right to keep a breeding interest in any bull so designated in the catalog or during the auction. In the event seller elects to collect semen from a designated bull, it will be done at the seller's expense and during such time when puchaser is not using the bull for breeding.

IMPLIED WARRANTY: Except for those stated in the terms and conditions there are no warranties, either expressed of implied, as to merchantability or fitness for a particular purpose with the respect to the cattle being sold in this auction. The warranties set forth in the terms and conditions are in lieu of all other warranties, either expressed or implied and the remidies provided therein shall be the sole and exclusive remedy of the buyer or any party claiming through the buyer for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

CONTRACT: The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.
